

EQUIPMENT OVERVIEW

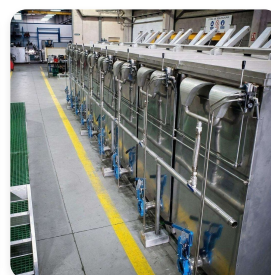

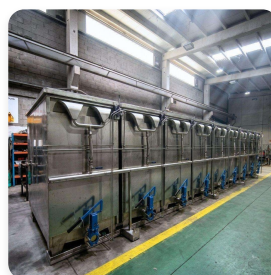

Water or brine cooker battery (cooking vats) for fish, designed with a vertical opening driven by a hydraulic system. Manufactured with AISI 316 stainless steel components for maximum durability in demanding industrial environments.

TECHNICAL FEATURES

- ✓ **Machine type:** Water or brine cooker battery
- ✓ **Temperature control:** Digital controllers
- ✓ **Opening:** Vertical and hydraulic
- ✓ **Construction material:** Inox AISI 316
- ✓ **Heating:** Indirect steam

Optional Equipment:

- Touch screen control with analog inputs

TECHNICAL TABLE

Parameter	Specification
Model	MC CE/AH
Opening	Vertical
Door opening	Hydraulic
Temperature control	Digital
Power supply	380/440 V — 50/60 Hz
